Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is in response to applicant's amendment received on 06/19/2007.

Allowable Subject Matter

2. The indicated allowability of claim 43 is withdrawn in view of the newly discovered reference(s) to Worcel (U.S. Patent 5,993,450). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

4. Claims 39-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. Claim 39 recites the limitation "screw-threaded part" in line 18. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 40 recites the limitation "screw-threaded part" in line 18. There is insufficient antecedent basis for this limitation in the claim.
7. Claim 41 recites the limitation "screw-threaded part" in line 18. There is insufficient antecedent basis for this limitation in the claim.
8. Claim 42 recites the limitation "screw-threaded part" in line 18. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

9. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

10. Claim 43 is rejected under 35 U.S.C. 102(b) as being anticipated by Worcel (U.S. Patent 5,993,450).

Regarding claim 43, Worcel discloses a device inherently capable of being used by a method comprising the steps of drilling a hole into bone tissue and engaging an anchoring portion of a fixture in the hole in the bone tissue until a flared part of the fixture substantially fills the open end of the hole in the bone tissue and a transversely resilient part is compressed radially inward. The structure recited in the preamble of claim 43 is functionally recited and not required for the reference to read on the claim. The reference only needs to teach a method comprising the steps discussed above and be capable of being used with a fixture as described within the preamble of the claim.

Allowable Subject Matter

11. Claims 39-42 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

12. Claims 16, 19, 21, 30, 31, 33-37, and 39-42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3733

Conclusion

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 for cited references the examiner felt were relevant to the application.
